### Take a tour of our resources!

### Introduction:

The WFMT Bach to School website contains a wealth of information and resources, and while the basic musical principles utilized throughout are appropriate and applicable for students of all ages, we offer differentiated instruction for various age groups.

### **Instrument Sets:**

For our youngest students, we offer full classroom sets of **boomwhackers**, as well as a comprehensive **30-piece rhythm kit**. And our new **Latin American rhythm kit** adds an entire new range of sounds to the classroom! These tools offer opportunities to build introductory musicianship skills in a fun, hands-on, tactile way most suitable for use within early elementary school classrooms.

For our intermediate students, we offer full classroom sets of **recorders**, as well as supplementary sets of **xylophones**. These introductory melodic instruments are an excellent introduction to both melody and harmony. Perfect to introduce to elementary aged students, these are instruments which can grow with your students, with greater opportunity for complicated harmony and ensemble building.

For more advanced students, we offer supplementary sets of both **ukuleles** and **djembe drums**. Perfect for high school students, ukuleles can serve as both melodic and accompanying instruments, and can be used solo and as part of an ensemble. Similarly, the djembe is an excellent introduction to hand drums, and allows a wide array of differentiated percussive sound within a manageable instrument.

#### **Lesson Plans:**

Each of our instrument kits are accompanied by lesson plans designed to kickstart instruction for your students. Our **boomwhackers** and our **rhythm kits** come with lesson plans specially tailored to elementary aged students.

For our intermediate students, we offer an introductory lesson plan for **xylophone**. And our **recorder** set comes with an accompanying lesson plan, and a comprehensive instruction book to guide your students throughout their musical journey. And our new **choral program guide** is a perfect introduction to choral music created for young voices.

For high school aged students, we offer a variety of opportunities for instruction. In addition to lesson plans for **ukulele** and **djembe**, we also offer **keyboard** instruction. And our new **choral program guide** for high school students will help your students engage in the joys of communal singing at an age-appropriate level.

#### **Additional Resources:**

For your listening pleasure, we offer the **Complete Works of Bach**. This comprehensive, 142disc set offers the entirety of J.S. Bach's musical output on CD, and is an invaluable listening aid for both novice and afficionado. We also offer a pair of arrangements: Camile Saint-Saëns **Carnival of the Animals** and Sergei Prokofiev's **Peter and the Wolf**. These pieces, scored for melodic instruments, harmonic instruments, and percussion, allow for flexible interpretation, and are crafted to be used in coordination with our various instrument sets.

## <u>Piano Lesson Plan</u>

# Anchor Standard 7 (Responding): Perceive and analyze artistic work.

**Enduring Understanding:** Individuals choose music based on their interests, experiences, musical understanding, and each musical work's purpose. **Essential Question:** How do individuals choose music to experience?

Anchor Standard 8 (Responding): Construct meaningful interpretations of artistic work.

**Enduring Understanding:** Through their use of elements and structures of music, creators and performers provide clues to their expressive intent. **Essential Question:** How do we discern the musical performers' emotions, thoughts, and ideas?

Anchor Standard 9 (Responding): Apply criteria to evaluate artistic work.

**Enduring Understanding:** The personal evaluation of musical work(s) and performance(s) is informed by analysis, interpretation, and teacher- or student-established criteria.

**Essential Question:** How do we judge the quality of musical work(s) and performance(s)?

Anchor Standard 10 (Connecting): Synthesize and relate knowledge and personal experiences to make art.

**Enduring Understanding:** Musicians connect their personal interests, experiences, ideas, and knowledge to creating, performing, and responding. **Essential Question:** How do musicians make meaningful connections to creating, performing, and responding?

## **Objectives**

Student(s) will:

- Explore the sounds of the piano
- Learn basic hand positions and techniques for piano
- Engage with the piano, playing melodies using both hands at once
- Begin to learn sharps and flats

# <u>Materials</u>

Computer, Speakers, Smartboard, Keyboards

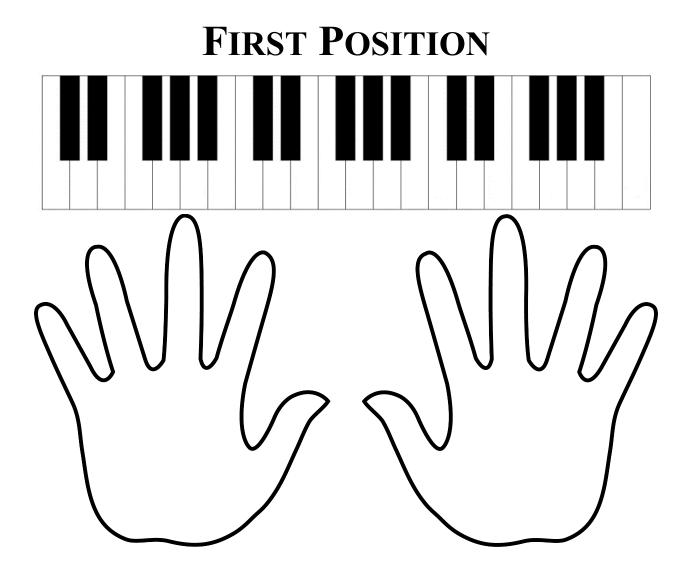

# **Procedure**

# Introduction to Piano

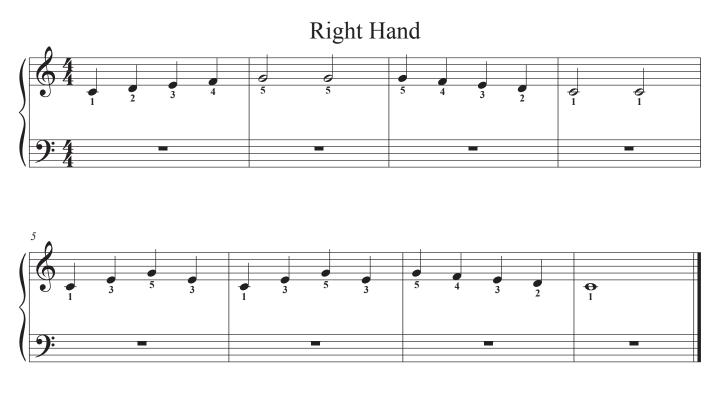

5 minutes	Listen and Watch	Piano Music ( <u>link</u> )	
10 minutes	First Steps	Number fingers 1-5 (See worksheet) Locate Middle C Showcase the difference between white keys and black keys	
15 minutes	First Position	One student per keyboard Students will work through the pieces in first position (See worksheet)	
5 minutes	Play Together	Allow students to share what they have learned Let students play through pieces solo and in ensemble	
5 minutes	Listen and Watch	Piano Music (No black keys) ( <u>link</u> )	
Moving to a New Position			
10 minutes	First Steps	Number fingers 1-5 (See worksheet) Locate Middle C Showcase the differences between first and second position	
15 minutes	Second Position	One student per keyboard Students will work through the pieces in second position (See worksheet)	
5 minutes	Play Together	Allow students to share what they have learned Let students play through pieces solo and in ensemble	
5 minutes	Listen and Watch	Piano Music (All notes the same) ( <u>link</u> )	

# Introducing Flats

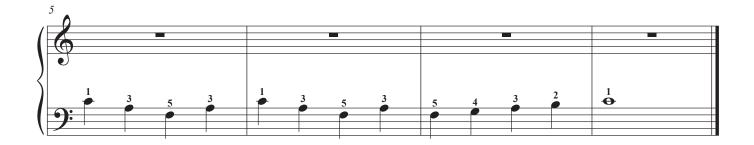

10 minutes	First Steps	Number fingers 1-5 (See worksheet) Locate Middle C Find B b
15 minutes	First Flat	One student per keyboard Students will work through the pieces utilizing one flat (See worksheet)
5 minutes	Play Together	Allow students to share what they have learned Let students play through pieces solo and in ensemble
Introducing Sharps		
10 minutes	First Steps	Number fingers 1-5 (See worksheet) Locate Middle C Find F♯ Prepare to move between positions
15 minutes	First Sharp	One student per keyboard Students will work through the pieces utilizing one sharp (See worksheet)
5 minutes	Play Together	Allow students to share what they have learned Let students play through pieces solo and in ensemble

# **First Position**

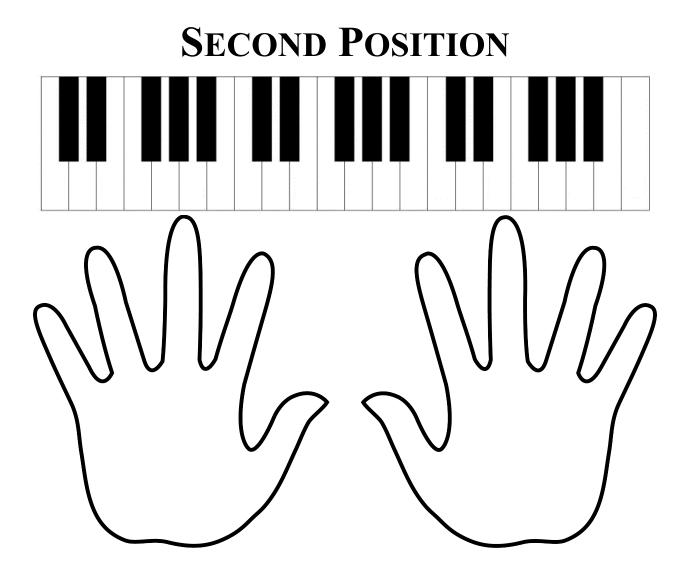

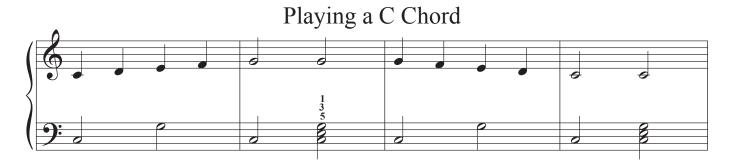

Back and Forth

# Second Position

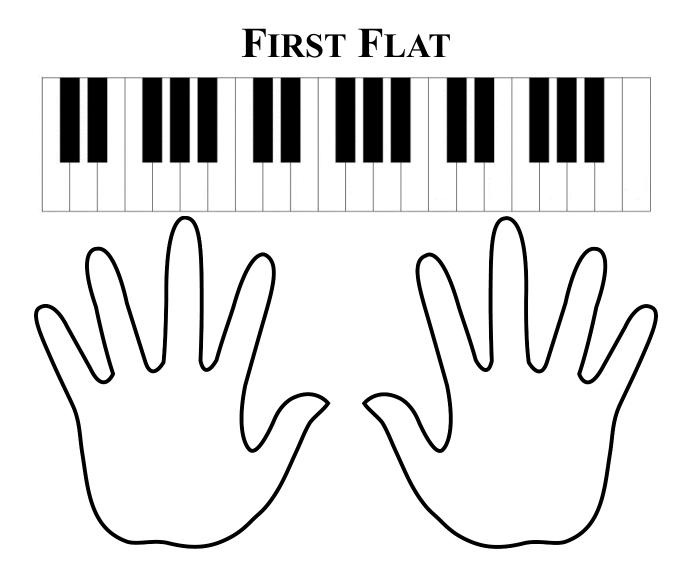

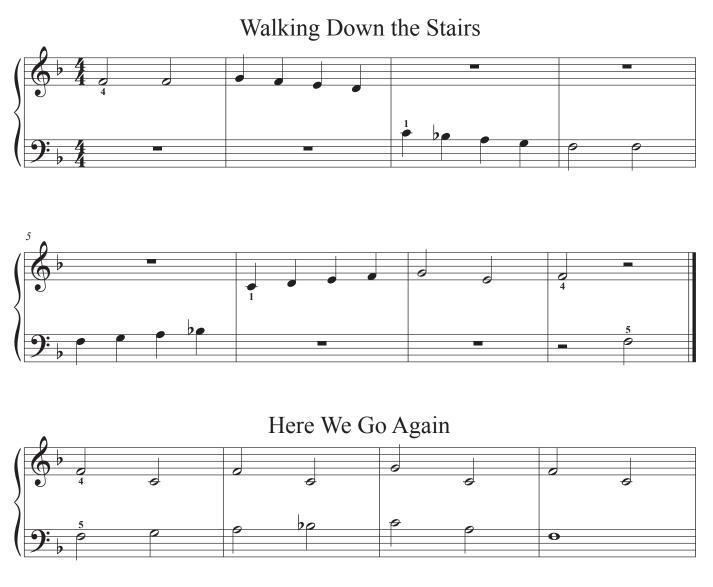

A Quick Descent

# First Flat

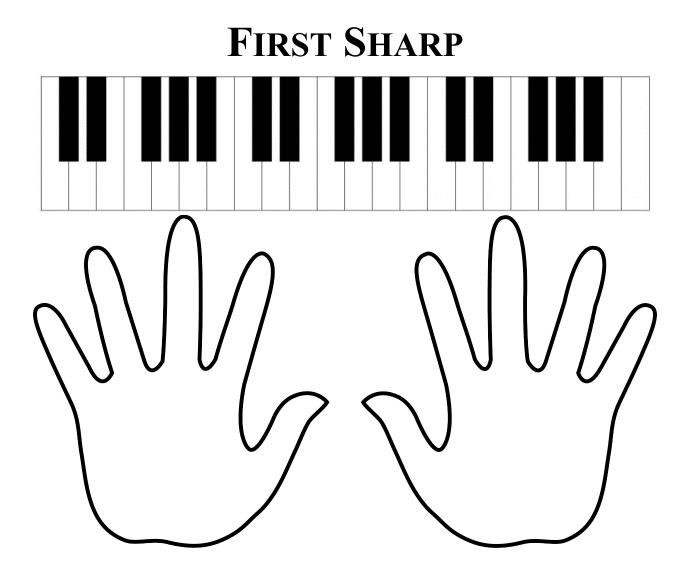

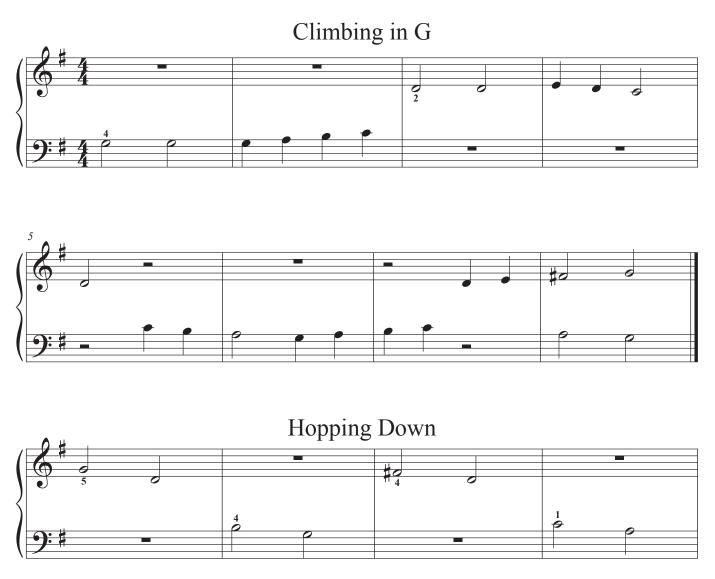

# First Sharp
